Win a 3D Printer for your School

To celebrate **Engineers' Week 2021**, I-Form, the SFI Research Centre for Advanced Manufacturing, are inviting all Junior Cycle students from 1st, 2nd and 3rd Year to enter a virtual 3D Printing competition. The school of the winning student entry will receive a 3D Printer to support engagement with 3D Printing in the classroom. More prizes will also be available.

To enter this competition, students are asked to **'Design a new device or system that will enhance the day-to-day activities of a senior citizen'**. Complete your design using Solidworks, Tinkercad, Onshape or any other appropriate CAD software available to you.

Students should submit their entry on one A3 page. This page should contain images of your design, with annotations outlining what inspired your design idea, the rationale behind your design and the purpose and value of your design solution.

All entries and queries should be emailed to **3dprintingcompetition@gmail.com**

Closing date for entries is **Friday 5th March at 3pm**.

The winner will be announced on Twitter **@I_Form_Centre** and **@JCt4ed** will retweet.
Best of luck to everyone!!!
